

國立成功大學醫學院附設醫院 2018年報

2018 Annual Report of the National Cheng Kung University Hospital

目錄 TABLE of CONTENTS

- 1 / 宗旨、願景、核心價值 02
Objectives, Core Goals, Core Values
- 2 / 策略目標 03
Strategic Goals
- 3 / 病人權利與配合事項 04-05
Patients Rights and Guidelines
- 4 / 院長的話 06-07
Greetings
- 5 / 沿革 08-09
History
- 6 / 亮點 10
Featured Stories
- 7 / 組織架構 11-12
Organizational Structure
- 8 / 2017統計資料 13-21
2017 Statistics
- 9 / 建物配置與樓層介紹 22-23
Building Layout and Floor Map

設立宗旨 STRATEGIC GOALS

- 提供臨床教學實習
Offering clinical teaching and internship
- 促進醫學之研究發展
Promoting medical research and development
- 提供完善之診療服務
Offering excellent medical services to the public
- 協助地區醫療單位之發展
Assisting the development of local medical units and institutions
- 辦理各類醫療人員繼續教育
Holding continuous medical education programs for medical personnel

願景 CORE GOALS

- 民眾最理想的健康照護中心
Being the best medical care center for the general public
- 醫療人員最理想的教學研究與工作環境
Being the best teaching, research and work environment for medical professionals

核心價值 CORE VALUES

- 生命、愛心、卓越、創新
Life, Love, Excellence, Creativity

策略目標 STRATEGIC GOALS

01 顧客 — 提供全人的優質醫療

Customer-Provide excellent holistic medical care

- C.1提供整合性全人醫療照護 C.1 Provide integrated holistic medical care
- C.2提升內外部顧客滿意度 C.2 Increase customer satisfaction internally and externally

02 內部流程 — 落實病人安全及便利就醫

Internal Process-Ensure patient safety and access to care

- I.1營造安全就醫環境 I.1 Create a safe medical environment
- I.2建置便利就醫流程 I.2 Implement convenient care-seeking procedures
- I.3強化資通訊科技運用 I.3 Strengthen Information and Communication Technology usage

03 學習成長 — 培育全人照護能力的醫事人才

Learning and Development-Cultivate Holistic Care Medical Professionals

- L.1提供全人照護的人才培育 L.1 Train staffs for holistic care
- L.2強化師資培育及教學能力評估 L.2 Strengthen teachers' skills of teaching and assessment
- L.3提升跨領域團隊合作照護能力 L.3 Enhance interprofessional education and practice
- L.4提升臨床技能中心教學效能 L.4 Maximize the efficacy of clinical skill center

04 學習成長 — 建構卓越醫學研究中心

Learning and Growth-Construct an excellent medical research center

- R.1提升研究動能 R.1 Enhance research momentum
- R.2躍升國際計畫 R.2 Increase international projects
- R.3開發尖端醫療科技 R.3 Develop cutting edge medical technologies

05 財務 — 強化醫療效益及永續經營

Financial-Reinforce medical benefits and sustainable management

- F.1改善成本結構，穩定醫療收入 F.1 Improve cost structure and stabilize medical revenue
- F.2提高資源配置適當性 F.2 Increase the suitability of resource allocation
- F.3避免醫療資源浪費 F.3 Reduce waste of medical resources

06 社會責任 — 善盡社會責任

Social Responsibilities-Uphold social responsibilities

- S.1整合社區推動健康促進及長期照護 S.1 Integrate communities to carry on health promotion and long-term care
- S.2推動綠色醫院 S.2 Promote green hospitals
- S.3推動國際醫療援助 S.3 Promote international medical aid

國立成功大學醫學院附設醫院

病人權利與配合事項

病人權利

公平醫療

本院不會因為性別、年齡、宗教、種族、國籍、職業、身分等而有差別待遇。

專業識別

本院醫事人員均配戴識別證，若未配戴者，您可拒絕其提供之醫療服務。

告知說明

本院醫療人員為您診治時，會向您或親屬告知病情、治療方針、處置、用藥、預後情形及可能之風險等。

醫療參與

鼓勵您參與醫療過程及決策，並歡迎您發問、討論或要求說明。您亦可徵詢其他醫師之第二意見。您有權利接受或拒絕醫療人員有關檢查或治療的建議。

知情同意

手術、麻醉、侵入性檢查或治療前，本院醫師會先向您或您的法定代理人、配偶、親屬或關係人說明該處置的原因、成功率、可能的併發症、副作用、風險及替代方案等，經同意並簽具同意書後，我們才會進行檢查或治療，但依醫療法規定，遇有緊急情況時，則不在此限。

隱私保護

本院依法善盡保密您病歷資訊之義務；合乎法律及醫學倫理情況下，尊重您不願告知特定家屬或他人您病情之意願；您可以請本院同仁設定拒絕訪客查詢住院資料。

病歷申請

若您本人、法定代理人或經授權之人需要申請病歷複製本、各類診斷證明書、影像資料光碟複製等病歷資料，應出示相關證明文件。

安寧療護

末期病人可以拒絕施行心肺復甦術及選擇安寧緩和醫療，成年人均可以簽署「預立選擇安寧緩和醫療意願書」，您也可以簽立醫療委任代理委任書。您的意願選擇，隨時都可以以書面撤回。

意見反應

反應管道：

- 1.電話06-2766668或分機6668
- 2.電郵hospital@mail.hosp.ncku.edu.tw
- 3.填寫意見表投入院長信箱。

病人配合事項

醫療事宜

- 1.請您配合醫療團隊的治療計畫，包括飲食、運動、藥物及復健等，並應將病情、病史、藥物過敏史及是否正在使用其他醫療方式等重要資訊，詳實告知醫療人員。
- 2.請勿接受不明人士宣稱或推銷之保健食品或藥品。
- 3.您在做醫療決定前，應先了解拒絕或接受治療可能造成的風險。
- 4.若醫師認為病情不適合出院，而您堅持出院時，依醫療法規定，須請您填具自動出院書。
- 5.因病情狀況，經醫師判定適合出院或轉床時，應請配合。
- 6.您不得要求醫事人員提供不實的資料或診斷證明。
- 7.您應遵守本院暨健保的相關規定。

醫療費用

請您瞭解並同意負擔各項診治費用及其付費方式。若需採用健保不給付之自費項目時，本院會先作說明並經您同意後才施行。

感染管制

為保障您與他人健康，請遵守本院感染管制規範及措施：

- 1.請多洗手；若您有發燒或呼吸道症狀(如咳嗽)請配戴口罩。
- 2.請勿攜帶輸液、引流管路、穿著手術衣或探病衣，進入商場、公共場所等。
- 3.免疫功能低下、發燒、腹瀉或呼吸道症狀(如咳嗽)病人，應避免出入商場及公共場所等。
- 4.特殊隔離病人於隔離期間，非經醫護人員同意，不得離開病室，照顧者請勿與其他病人及照顧者接觸。

環境衛生

本院全面禁菸、禁酒及禁嚼食檳榔，特定區域內禁用手機。除導盲犬外，禁止將寵物帶入院區。

財物管理責任

本院無承擔個人財物遺失或損壞的責任，請勿攜帶貴重物品到院或自行妥善保管財物。若發生財物遺失事件，本院可協助找尋，或於必要時陪同您向管區派出所報案。

拍照錄影錄音

為維持醫療運作暨維護病房安寧，並保障其他病友與本院人員之隱私權等，請您勿在本院院區內進行採訪、拍照、錄影或錄音。

院區安全

- 1.本院門禁時段為晚間9:30至次日早上7:00。門禁期間，僅持有陪病證者可進出病房，無陪病證者應在晚間9:30前離院，以維護病室安寧及公眾安全。
- 2.禁帶危險物品或法定違禁品到院，違者本院得中止醫療辦理出院程序或報案處理。若於院內發現有暴力行為之虞或可疑人士，請通知警衛人員處理。

National Cheng Kung University Hospital

Patient Rights and Guidelines

Patient Rights

Equal Medical Treatment

Patients of this Hospital will receive access to equal medical treatment regardless of gender, age, religion, race, national origin, occupation, or social status.

Professional Identification

The medical staff of this Hospital must wear ID badges. You may refuse treatment by those who fail to display any ID badges.

Informing

While the medical staff members provide treatment for you, they will inform you or your family of your condition, treatment plan, treatment, medication, prognosis, potential risks, etc.

Medical Participation

We encourage you to participate in the treatment process and decision making, and we welcome you to raise questions, discuss the matter, or ask for instructions. You may also seek a second opinion from other doctors. You have the right to accept or refuse any advice on examination or medical treatment made by the medical staff.

Informed Consent

Before any surgery, anesthesia, invasive examination or treatment, the doctor will first explain to you, your legal representative, spouse, relatives, or related people the reason for the treatment, success rate, possible complications, side effects, risks, and alternatives. Only after the consent is signed and agreed to will we proceed with the examination or treatment. However, according to Medical Law, this does not apply in case of emergency.

Privacy Protection

This Hospital has the responsibility to protect the confidentiality of your medical records. We respect your unwillingness to inform specific relatives or others of your condition as long as it is in accordance with the law and medical ethics. You can ask a staffer to block visitors from looking up your hospitalization information.

Application for Medical Records

When you, your legal representative, or an authorized party applies for a copy of your medical records, medical certificates, or a disk of copied images, you are required to provide identification information.

Hospice Care

Patients with terminal illness may refuse CPR and opt for hospice care. Adult patients can sign "Pre-Consent to Hospice Care." You can also sign a medical power of attorney. You can make your own decision and you are able to withdraw the decision in writing anytime.

Opinions

Tell us your opinions via:

1. Tel 06-2766668 or dial extension 6668
2. Email: hospital@mail.hosp.ncku.edu.tw
3. Fill in the feedback form and post it in the director's mailbox.

Patient Guidelines

Medical Matters

1. We ask you to comply with the treatment plan of our medical team, including eating, exercising, medication and rehabilitation plan. Also, we ask you to faithfully inform the medical staff of your condition, medical history, allergies to medications, and medical treatments you are currently undergoing.
2. Do not accept health food or medicine promoted or sold by unknown people.
3. Before you make any medical decisions, you must first know the potential risks arising from accepting or refusing the treatment.
4. If you insist on leaving the hospital when the doctor considers your condition to be unsuitable for being discharged, you must fill in an AMA (against medical advice) form.
5. We ask for your cooperation when the doctor advises hospital discharge or intra-hospital transfer according to your condition.
6. You are not allowed to ask our medical staff to provide you with unfaithful information or medical certificates.
7. You must comply with the pertinent regulations of this Hospital and National Health Insurance.

Medical Expenses

We ask you to look into, and agree to, the treatment expenses and corresponding payment method. If you are using self-pay treatment not covered by National Health Insurance, we will first provide you with instructions and only perform the treatment after obtaining your consent.

Infection Control

To protect the health of yourself and others, please adhere to the infection control regulations and procedures:

1. Wash your hands frequently; wear a surgical mask if you have a fever or respiratory problem (e.g. coughing).
2. Do not bring any infusion, drainage tube, or wear any hospital gown or clothing for patient visits to shopping malls or public areas.
3. Patients with a weak immune system, fever, diarrhea or respiratory problem (e.g. coughing) should avoid going to shopping malls or public areas.
4. Specially quarantined patients must not leave the ward without the approval of the medical staff during the period of quarantine. Caretakers must not have contact with other patients and their caretakers.

Environmental Hygiene

Smoking, alcohol, and betel nuts are prohibited in this Hospital. In certain areas, cell phones are also prohibited. Apart from guide dogs for the blind, pets are not allowed.

Property Storage Responsibility

This Hospital is not liable for any loss of or damage to personal property. Do not bring any valuable property to the hospital, and please take proper care of your own belongings. If any loss of personal property takes place, we will help you search for the property or accompany you to the district police station to report the case if necessary.

Photography, Filming, or Recording

In order to maintain medical operations and a quiet ward environment, and also protect the privacy of patients and staff, do not conduct interviews, take photographs, film, or record sounds.

Hospital Safety

1. This Hospital's access control period is between 9:30 p.m. to 7:00 a.m. (the next day). During the period, only those who hold a permit to accompany patients during their hospital stay are allowed. Those without permits must leave before 9:30 p.m. to maintain a quiet ward environment and public safety.
2. Dangerous goods or objects prohibited by law must not be brought to this Hospital. In case of any violation, we will terminate the treatment and discharge the patient, or report the case to the police. If you find any violent behavior or suspicious people in this Hospital, please call security.

院長的話

2018年6月12日是成大醫院30歲的生日，所謂「成醫三十載，醫療展風采；成醫半甲子，護病一輩子」，說明了成醫人這三十年來為民眾的健康兢兢業業、無私奉獻的心。因此，2018年的醫院年報，不只展現成大醫院過去一年的努力成果，更是為這三十年寫下完美的註腳。

在醫療服務方面，2017年本院的「睡眠醫學中心」正式揭牌，提供睡眠障礙相關疾病的醫療診治與研究，包括心血管與代謝性疾病等；中心的成立大幅改善雲嘉南地區睡眠障礙病人就醫檢查的不便，並承擔培育南台灣醫學專業人才及提升南台灣睡眠醫療產學合作能量及品質。本院也參與了經濟部工業局及金屬工業中心「利基生技醫藥產業輔導與國際化推動計畫」，於住院大樓9樓B區病房建置「心肌梗塞患者」智慧型生理監視系統，透過生理監視系統結合雲端上網，於護理站的中央監控螢幕或藉由相關通訊產品即可即時監控病人病情。另癌症中心的頭頸癌團隊與肝癌團隊分別新增了「口咽癌」與「肝內膽管癌」的診療指引，兒童癌症團隊也增加了「兒童惡性橫紋肌肉瘤」項目，彙整院內治療共識，提供臨床醫師診療時的重要參考。

本院於2017年10月順利通過醫學中心級的教學醫院評鑑，在臨床教學訓練方面，可以提供醫師及醫事人員類的訓練。2017年本院提供了400多位包括PGY醫師與國內外實習醫學生的全年及短期受訓；其他醫事職類更提供多達3,000位以上人員之受訓，其中也不乏來自國外的實習學生。

本院2017年的研究計畫總件數高達400多件，其中院內計畫投入的經費，比2016年增加了18%以上；另外也爭取到衛福部、科技部及國衛院共3億多元的研究計畫經費，比2016年增加約10%。此外，本院2017年新增115件臨床試驗計畫，其中87%為國際性的多國多中心的計畫，尤其是早期臨床試驗也持續增加，足見本院臨床試驗之品質已達到國際的水平。在創新研發方面，「光學基因剪切技術：分子、細胞及活體之多層次基因編輯應用」獲得第14屆「國家新創獎-學研新創獎」的榮譽。

本院志工團隊有700多位授證志工，秉持公益心與慈善情的美好初衷，在院內各角落提供良好的服務，幫忙醫護人員分勞，更積極協助病人和家屬，在2017年連續獲得臺南市政府及衛福部的績優志工團隊獎的肯定。

身為成醫人，大家都願意為成醫這個大家庭衷心的付出，成大醫院也會持續檢視過去、規劃未來，做好醫療照護的堅持，持續散播愛心與溫暖。期許「成醫三十，築夢踏實」，讓成大醫院成為照護病人一輩子健康的不二選擇，更在醫療照護上展現光彩奪目的成績。

院長 楊俊佑

GREETINGS

June 12, 2018 will mark the 30th anniversary of National Cheng Kung University Hospital. The saying, “30 years of service, remarkable results in medical care; 30 years of service, lifelong care for patients,” faithfully illustrates how NCKU Hospital has strived to care for patients with selfless dedication over the past 30 years. Thus, the Hospital’s 2018 annual report will not only demonstrate the results achieved by the hard work over the past year, but note the Hospital’s 30 years of work.

In terms of medical services, our Sleep Center officially opened in 2017, providing medical treatment and research on diseases related to sleep disorders, including cardiovascular disease and metabolic syndrome. The establishment of the Center has considerably improved access to medical care and check-ups for patients with sleep disorders in Yunlin, Chiaya and Tainan area. Also, it shoulders the responsibility for cultivating medical professionals in Southern Taiwan as well as improving the industry-academia collaboration on sleep-related medicine in Southern Taiwan. We also participated in the “Niche Biotech Medical Industry Counselling and Globalization Program” organized by the Industrial Development Bureau, Ministry of Economic Affairs and Metal Industries Research & Development Centre. For this program, we established a smart physiological monitoring system for “patients with myocardial infarction” in the wards of B zone on the 9th floor. By connecting the system with the cloud, patients can be monitored instantly via the central monitor screen at the nursing station or relevant telecommunications products. The Cancer Center’s Head and Neck Cancers Team and Liver Cancer Team have added treatment guidelines for “Oropharyngeal Cancer” and “Intrahepatic Cholangiocarcinoma” respectively. The Childhood Cancer Team has also added the “Malignant Childhood Rhabdomyosarcoma Program.” In so doing, the treatment methods adopted within the Hospital are collected, providing doctors with important references when making diagnoses or treating patients.

We recently passed the accreditations of teaching hospitals that served as medical centers in October 2017. As for clinical training, we provide training for doctors and practicing medical personnel. In 2017, we provided all-year-round and short-term training for over 400 PGY residents and domestic/international medical interns. The number of participants from other medical professions reached over 3,000; among those, there were many student interns from abroad.

In 2017, we had over 400 research projects in total, among which we injected 18% more funds into the intra-hospital projects compared to the previous year. In addition, we also won research funding of over 300 million granted by the Ministry of Health and Welfare, Ministry of Science and Technology, and National Health Research Institutes, which was 10% higher than in 2016. In addition, we included 115 new clinical trial projects in 2017, among which 87% were international projects. Furthermore, there are more early phase clinical trials, proving the quality of our clinical trials. With respect to innovation and development, our “Photonic gene scission technology: from molecular toward in vivo multi-scale gene editing” won the 14th “National Innovation Awards: Academic Research Innovation.”

The Hospital’s volunteer team has more than 700 certified volunteers, who provide excellent services in every corner of the Hospital with the wonderful intention of doing good deeds. They have not only actively assisted the medical staff, but also the patients and families. The team was consecutively awarded as an Excellent Volunteer Team by Tainan City Government and the Ministry of Health and Welfare in 2017.

As members of the NCKU Hospital, we are all willing to cordially contribute to our big family here. At the same time, we will continue to reflect on the past and plan for the future. We will persist in quality health care and spreading love and warmth. Let us uphold “30 years of service, goals fulfilled with steady progress.” We aspire to make our hospital the perfect choice when it comes to lifelong care for patients. Moreover, we hope to achieve dazzling results in medical care.

Superintendent
Chyun-Yu Yang

沿革 HISTORY

時間	Date	時事紀要	Event
1981	7月3日 3rd July	奉行政院核准設立醫學院	The Executive Yuan approved the establishment of the School of Medicine.
1985	2月15日 15th February	本校醫學中心(醫學院及教學醫院)動土奠基典禮在建國校區舉行	The groundbreaking ceremony for the Medical Center of the School of Medicine and Teaching Hospital was held at the Chien-Kuo campus.
1985	2月25日 25th February	建築工程動土典禮	The groundbreaking ceremony for construction
1988	6月12日 12th June	本院啟用典禮	Opening ceremony of this Center
1990	8月 August	行政院衛生署醫院暨教學醫院評鑑為「準醫學中心」	Rated as "Would-be Medical Center" for the accreditation of medical centers and teaching hospitals by the Department of Health, Executive Yuan
1993	5月11日 11th May	本院經衛生署、教育部會同辦理81學年度教學醫院評鑑結果為教學醫院	The Department of Health and Ministry of Education's 1992 teaching hospital accreditation rated this Center as a Teaching Hospital.
	5月20日 20th May	醫護大樓動土興建	Construction of the dormitory building began.
	7月1日 1st July	本院第一次經衛生署評定為醫學中心	This Center was rated as a Medical Center by the Department of Health for the first time.
1994	4月28日 28th April	本院新成立「器官移植醫療小組」完成首例捐腎移植手術	This Center established the organ transplant medical team; completed the first donated kidney transplant surgery.
	8月3日 3rd August	本院成立臨床病毒實驗室發展為南台灣濾過性病毒檢驗及研究中心	The Center established the clinical virus lab and became the virus testing and research center for South Taiwan.
1998	1月1日 1st January	衛生署核准本院擴增364床，第1階段先擴設170床	Department of Health approved the 364 bed expansion of this Center. 170 beds were added in the first stage.
	2月10日 10th February	本院與省立台南醫院建立跨世紀醫療合作	This Center and the provincial Tainan hospital established a cross century medical partnership.
	6月12日 12th June	本院緣恩安寧病房啟用（南部第1家）	The Yuan-En hospice ward was opened (first in the south).
1999	6月2日 2nd June	六二火災本院展現高度復原執行力於8日內恢復全面醫療服務	This Center showed expert recovery abilities by resuming full medical care within 8 days after the 6/2 fires.
	9月23日 23rd September	本院參與921的賑災活動認養南投縣漁池鄉災區，全力進行醫療救援	This Center participated in rescue efforts after the 9/21 earthquake. The Center adopted the Yuchi Township area of Nantou county; provided medical assistance.
	9月23日 23rd September	本院由黃朝慶暨劉清泉教授以腸病毒71型感染之醫學研究為本院第1篇榮登於新英格蘭醫學雜誌	Research on Enterovirus 71 infection by Professor Huang Chaoching and Professor Liu Chingchuan of this Center was successfully published in the New England Journal of Medicine.
	11月3日 3rd November	本院引進全國第一具聲控內視鏡手術機器人「伊索」進行外科手術	This Center introduced the first voice controlled endoscopy robot "AESOP" in the country for surgeries.
2001	3月6日 6th March	本院完成首例肝臟移植	The Center successfully performed the first liver transplant.
	6月12日 12th June	本院完成首例肺臟移植	The Center successfully performed the first lung transplant.
2003	3月 March	SARS風暴本院醫療團隊建構強力防火牆，守住台南地區疫區不受淪陷	During the SARS outbreak, the medical team constructed powerful firewalls to protect the Tainan area from the epidemic.
	9月10日 10th September	本院遺傳中心揭幕	This Center's Genetic Center was unveiled.
	9月19日 19th September	中草藥臨床試驗中心成立	The Chinese herbal medicine clinical testing center was established.
2004	12月 December	本院新生兒加護病房「營造優質環境-早產兒發展性照護」榮獲國家生技醫療品質獎競賽金獎	The Neonatal Intensive Care Unit (NICU) won a gold award in the National Biotech Medical Quality Competition for "creating an excellent environment for premature baby development care"
2005	2月15日 15th February	本院腫瘤中心揭幕	The Cancer Center was unveiled.
	3月30日 30th March	本院正子造影中心揭幕	The PET Center was unveiled.
	7月1日 1st July	斗六分院開幕	The Douliu branch opened.
	12月14日 14th December	本院完成第1例心臟移植手術	This Center successfully performed the first heart transplant.
	12月 December	本院安寧療護團隊「全人照顧的安寧療護」榮獲國家生技醫療品質獎競賽銀獎	The hospice medical team was awarded silver in the National Biotech Medical Quality Competition for "all around hospice care".
2006	12月 December	本院護理部/腫瘤中心「護理角色的拓展-腫瘤個案管理師」榮獲國家生技醫療品質獎競賽銅獎	The Nursing Department/Cancer Center was awarded bronze in the National Biotech Medical Quality Competition for "Expansion of nursing roles - Tumor case manager".

沿革 HISTORY

時間	Date	時事紀要	Event
2007	1月26日 26th January	本院門診大樓動土典禮	Groundbreaking ceremony for the outpatient clinic building
	4月11日 11th April	國家衛生研究院與成大簽定合約推動南部癌症中心	The National Health Research Institute and National Cheng Kung University signed contracts to promote the south Cancer Center.
	11月9日 9th November	正式通過財團法人全國認證基金會(TAF)ISO15189醫學實驗室認證	Officially certified by the Taiwan Accreditation Foundation (TAF) for ISO15189 Medical Laboratory Accreditation
	12月20日 22nd December	本院護理部「用心服務、全面落實 - 優質的出院準備服務」榮獲國家生技醫療品質獎競賽銅獎	The Nursing Department was awarded bronze in the National Biotech Medical Quality Competition for "Serve Heartedly, Act Totally - Building an Excellent Discharge Planning Service".
2008	3月13日 13th March	本院國家品質獎頒獎 (榮獲行政院第18屆國家品質獎)	The Center was given the National Quality Award (awarded the 18th annual National Quality Award by the Executive Yuan).
2009	12月22日 22nd December	本院外科部整形外科「優質的斷指再接植團隊」榮獲國家生技醫療品質獎競賽銅獎	The Division of Plastic Surgery was awarded bronze in the National Biotech Medical Quality Competition for "Excellent Digital Replantation Team".
2010	6月12日 12th June	馬英九總統蒞臨參加本院22週年院慶暨門診大樓啟用典禮	President Ma, Ying-Jeou attended the 22nd anniversary celebrations and opening ceremony of the out-patient clinic building.
	7月14日 14th July	衛生署 (今衛生福利部) 98年度推動醫院緊急醫療能力分級, 本院獲評定為重度級	The Department of Health (now the Ministry of Health and Welfare) promoted the ranking of hospitals' ability in relation to medical emergency in 2009. This Center received a high rating.
	12月 December	本院小兒科「卓越腸病毒團隊: 從病毒確認到臨床診治與社會分享」榮獲國家生技醫療品質獎競賽銅獎	The Pediatrics team was awarded bronze in the National Biotech Medical Quality Competition for "Excellent Enterovirus team: From virus confirmation to clinical diagnosis and social sharing".
2011	2月16日 16th February	成立台灣第一個國家級的失智症中心	Establishment of the first national level Alzheimer's Dementia Research Center in Taiwan.
	6月22日 22nd June	獲頒第三屆「政府服務品質獎」(第一線服務機關)	Awarded for the third Government Service Quality Award (First line service organizations)
	12月8日 8th December	與國家衛生研究院癌症研究所合作之「國立成大醫院及國家衛生研究院-國家癌症中心」揭牌	Partnering with the National Institute of Cancer Research, National Health Research Institutes, the NHRI and NCKU hospital - National Cancer Center was unveiled.
	12月 December	本院護理部「愛之生 伴我醫程 成大協力愛滋夢幻團隊」榮獲國家生技醫療品質獎競賽銀獎	The nursing department was awarded silver in the National Biotech Medical Quality Competition for "Love for life, with me during my treatment. National Cheng Kung University assisted the AIDS dream team".
2012	4月 April	整合心臟內科、心臟外科、小兒心臟科、放射科及復健科, 成立心血管整合照護病房	Combined Cardiology, Cardiovascular Surgery, Pediatric Cardiology, Department of Diagnostic and Rehabilitation Medicine to form the cardiovascular integrated care unit
	12月 December	本院護理部「營造全方位醫療照護倫理新典範」榮獲國家生技醫療品質獎競賽銅獎	The nursing department was awarded bronze in the National Biotech Medical Quality Competition for "Creating new examples of all around medical care ethics".
2013	2月7日 7th February	兒童重症加護病房重新整建揭幕	The pediatric intensive care units were unveiled after renovation.
	12月 December	引進最先進的血管攝影機, 設立多功能整合型手術室, 亞洲最新式, 領先日本	Introduction of advanced vascular cameras. Multipurpose integrated operating rooms were constructed, the newest in Asia; even leading Japan.
2014	2月19日 19th February	7C病房命名為耆頤圓病房揭幕(2013年12月完成整建)	Room 7C was renamed as ChiYiYuan room (completed in December, 2013).
	12月1日 1st December	領先國內引進「連續掃描(Flow Motion)」模式的正子電腦斷層掃描儀(PET/CT)	Led the country by introducing Positron Emission Tomography (PET/CT) with "flow motion" module.
2015	6月28日 28th June	動員燒傷團隊於八仙塵爆事件隔日起, 陸續收治5名傷患	Burn units were mobilized the day after the Formosa fire, taking in 5 different patients.
	11月30日 30th November	開辦「第一屆司法醫學課程」, 課程為期1週	Hosted the "First Judicial Medical Course", with a length of one week.
2016	2月6日 6th February	0206震災, 啟動333緊急動員, 醫護進駐災區現場	02/06 earthquake, 333 emergency mobilization was activated, and medical personnel were posted to the disaster zones.
	5月13日 13th May	本院榮獲行政院「第八屆政府服務品質獎」	The Center was awarded the "8th Government Service Quality Award" by the Executive Yuan.
	7月18日 18th July	本院與肯亞公立醫院Kenyatta National Hospital共同合作, 完成肯亞全國第一套醫療檢傷系統架設	This Center partnered with the Kenyatta National Hospital to complete the implementation of the first national medical diagnosis system in Kenya.
	12月5日 5th December	本院「特殊需求者牙科示範中心」正式揭幕	The Special Care Dental Center was unveiled.
	12月 December	完成「Corevalver physician certification」認證, 可以獨立執行Transcatheter Aortic Valve Replacement (TAVR)	Completed "Corevalver physician certification", allowing independent execution of Transcatheter Aortic Valve Replacement (TAVR)
2017	2月21日 21st February	睡眠醫學中心揭牌 (105年7月設立)	The Sleep Medicine Center was unveiled (established in July, 2016).
	10月17日 17th October	通過醫學中心醫院評鑑 (優等) 及教學醫院評鑑	Passed the accreditation of medical centers (excellent) and teaching hospitals.
	12月5日 5th December	成大醫院志工團隊榮獲衛福部全國績優志工團隊獎	The NCKUH volunteer team was granted the "Outstanding Volunteer Group Award" by the Ministry of Health and Welfare.

亮點 FEATURED STORIES

先天性及結構性心臟病心導管介入治療 Percutaneous Intervention for Congenital and Structural Heart Disease

早產兒「經皮心導管之開放性動脈導管關閉術」新紀錄：478克
New Record of "Percutaneous Intervention for Patent Ductus Arteriosus Closure" on Premature Infants weighting 478g.

本院為達「治療先天性心臟病 - 從胎兒到成人的全人照顧」目標，結合兒童心臟科、成人心臟科、心臟外科、影像科及其他相關科部，於2013年成立先天性及結構性心臟病心導管介入治療小組，是雲嘉南地區目前唯一有能力執行的醫院。

自2014年起，已完成17例介入治療關閉極低體重早產兒之開放性動脈導管，最低案例體重為478公克（106年5月9日），刷新世界紀錄。目前全世界體重最輕的前3名，都在本院接受介入治療。

To achieve the goal of "Providing holistic health care for patients with congenital heart disease: from prenatal period to adulthood", NCKUH integrated Pediatric Cardiology, Adult Cardiology, Cardiovascular Surgery, Radiology and other related divisions to form the Team of Percutaneous Intervention for Congenital and Structural Heart Disease in 2013, currently being the only capable hospital in the Yunlin-Chiayi-Tainan region.

Since 2014, NCKUH has completed 17 cases of intervention closing the patent ductus arteriosus of extremely low birth weight premature infants, with the lowest case weighting only 478 grams on May 9, 2017, leading world records. So far, the world top three lowest weight infants have all undergone the procedure in this hospital.

光學基因剪切技術：分子、細胞及活體之多層次基因編輯應用 Photonic gene scission technology: from molecular toward in vivo multi-scale gene editing

謝達斌教授(右2起至左1)、胡紀如講座教授、蘇五洲教授、蔡宗霖
研究員接受第十四屆國家新創獎頒獎。
Professor Dar-Bin Shieh(2nd from right to extreme left), Chair Professor Jih-Ru Hwu, Professor Wu-Chou Su, and Researcher Tsung-Lin Tsai received the 14th National Innovation Award for "Photonic gene scission technology: from molecular toward in vivo multi-scale gene editing."

本院謝達斌教授、蘇五洲教授、蔡宗霖研究員與清華大學胡紀如講座教授等人組成之團隊，以「光學基因剪切技術：分子、細胞及活體之多層次基因編輯應用」，榮獲第十四屆國家新創獎的榮譽。

精密基因剪切與編輯，是傳染、癌症、遺傳、代謝等許多疾病精準治療的關鍵。本發明以ATLANS做光學基因剪切，組合物包括中心奈米粒子、寡核苷酸鏈及光驅動核酸切割劑，專一性高且永久作用，且基因編輯方法簡易，有機會應用於一般生物實驗室，以及農畜業上轉殖基因動植物，或細胞菌種改良等領域。

The NCKUH team led by Professor Dar-Bin Shieh, Professor Wu-Chou Su, Researcher Tsung-Lin Tsai, and Chair Professor Jih-Ru Hwu of NTHU was awarded the 14th National Innovation Award for "Photonic gene scission technology: from molecular toward in vivo multi-scale gene editing."

Precision gene scission/editing is a key enabling technology toward precession diagnostics and therapeutics of many diseases including infectious diseases, cancer, genetic diseases, metabolic diseases and more. The present invention is an optical gene cleavage technique, called "Artificial Targeted Light-activated Nanoscissor (ATLANS)." The composition comprises optical modulating nanoparticles, sequence recognition polymer, and optical-driven nucleic acid cleavage warhead.

ATLANS is specific, accurate, permanent and innovative, similar to CRISPR function in gene scission. Since ATLANS is easily applicable and modulated by photonic energy, it can be widely used in general biology laboratory, genetic modified crops/animals, cell species improvement, etc.
